PerFormace Report:

Cross Browser Testing:

Error Catching:

```
useEffect(() => {  
  // Fetch food data from Sanity  
  const fetchData = async () => {  
    try {  
      const query = `*[_type == "food"]{  
        _id,  
        name,  
        category,  
        price,  
        originalPrice,  
        tags,  
        image,  
        description,  
        available  
      }`;  
      const data = await client.fetch(query);  
      setFoods(data);  
      setError(null);  
    } catch (err) {  
      console.error("Failed to fetch data:", err);  
      setFoods([]); // Set empty array to avoid rendering issues  
      setError("An error occurred while fetching the data. Please try again later.");  
    }  
  }  
});
```

Our Shop

An error occurred while fetching the data. Please try again later.
